Use filters to refine the search for relevant offers

Search Filters

- Allowed traffic type: shows you the type of promotional mediums allowed by the Advertiser like Social Media
- **Type:** shows you the commission model of campaigns that Advertisers pay their commission like CPS (cost per sale) or CPA (cost per action)
- **Geo:** shows the geographical countries where Advertisers allow their products to be sold. You can also select worldwide here
- Vertical: shows the category of products like ecommerce, dating, travel, and others which may be relevant to your website, blog, or social media profile
- **Search:** you can search by a specific brand name like eBay, Lazada, Nike, Adidas to refine your search to particular brands

You can select the relevant options on these filters and then press "Search" to update the list of offers

Status: shows if the campaign is active

Visibility: show if the campaign needs permission. Active campaigns do not need permission to be activated, if you see "Need approval" in visibility status - you can Apply for it from the offer detail page (click View). It is a default status indicating offers that require moderation from advertisers before the publisher can join the campaign.

Cap: shows if there is an earning cap for this offer

Rating: shows the ratings of the offer by other publishers

Geo: shows the countries where the campaign can be promoted

View: allows you to view Offer details page

The most important factors to consider are:

Payout: this shows the percentage of commission you can earn from the sale value. Check these in detail as percentages may vary depending on different product categories
Cookie Lifetime: this shows the duration of the cookie from your referred link. "30 days" means that if a person who visits your promoted link and buys anything over the next 30 days, you will still get the commission!

Deeplinking: this shows that the website allows you to generate a tracking link for any subpages or product pages with a product that you want to promote. Offers which don't allow deep linking only generate a link for the homepage of that website

Hold Period: since there maybe refunds, returns, or cancellations, the Advertisers hold your commission amount for a certain number of days before you are eligible to cash out your commission. This is to avoid any fraudulent transactions

NOTE: Please check out terms and conditions and traffic restrictions on this page to avoid getting banned by the Advertiser

Generate Tracking Link to Promote

Since Beautiful Halo does not allow deep linking you can generate a tracking link for their home from the Offer detail page.

- Scroll down of offer detail page to the Tracking Link section
- Select the source (website, social media profile) where you want to promote
- Click Generate

| Tracking link | | |
|---------------|----------|--|
